## OBJECTIVE

To pursue a challenging position in an organization that could provide me an opportunity to apply my skills and knowledge towards attaining the overall objective of an organization.    /

## CAREER SUMMARY

- Having 4 months of experience in the areas of Java Full Development.

- Good understanding in Frameworks like Visual Studio Code, Eclipse.

- Good knowledge on java programming language.

- Cohesive team worker with good problem-solving skill.

## SKILLS

**IDE / GUI Tools:**        Eclipse, Visual Studio Code**,** Anaconda

**Technical:**        Java, J2EE, HTML, CSS, JDBC, C Language, Python, Cybersecurity

**CRM Tool:**         Salesforce Development

## CERTIFICATIONS

- Full Stack Development (MERN) From Smart Internz.

- ML and OS From NPTEL.

- MongoDB from Code Tantra.

- Introduction to Cybersecurity, Cybersecurity Essentials from CISCO.

## PROJECTS

**Real Estate Management System:** A Real Estate Management System is a software solution designed to streamline and automate various tasks involved in managing real estate properties. It typically includes features for tracking property listings, managing tenant information, handling lease agreements, processing payments, and maintaining maintenance schedules. This system helps property managers, landlords, and real estate agents to efficiently oversee operations, enhance tenant satisfaction, and improve overall property management.

**Data Feedback Analysis:** It helps the decision-makers identify the trends and make better business decisions. It aims to glean valuable insights that help improve the product service and foster business growth.

## PROJECT DETAILS:

**Real Estate Management System**

**Technologies:** Mongo DB, Express JS, Node JS, React.

**IDE:** Visual Studio Code

**Data Feedback Analysis**

**Technologies:** Python

**IDE:** Anaconda

## INTERNSHIPS:

**Full Stack Development (MERN):** Designed and implemented a robust MERN-based application that reduced development time by 40% through code reusability and modular components, resulting in faster deployment cycles and enhanced user experience.

**Salesforce Developer:** Salesforce assists businesses in monitoring customer interactions and sales data. CRM systems, such as Salesforce, enhance customer service and streamline sales operations for businesses.

**Intern Data Analyst:** Feedback from end users is essential for organizational development. User insights provide valuable information on product strengths and weaknesses. Understanding customer opinions helps identify areas for improvement. Continuous feedback is vital for enhancing product quality and service effectiveness.

## LANGUAGE:

English (Fluent)                                    Telugu(Native)                                    Hindi(Beginner)

## EDUCATIONAL BACKGROUND

- B.Tech in Bachelor's with Computer Science Specialization from Kallam Haranadhareddy Institute of Technology, Chowdavaram with 84%.

- Higher Secondary Education from Vivekananda Vidyaniketan Junior College, 75 Tyallur with 95%.

- Secondary schooling from Vijaya Vidya Vihar High School, Pedakurapadu with 85%.

## ACKNOWLEDGEMENT

I hereby declare that all the information mentioned above is true to the best of my knowledge.
